About me

After obtaining my High School diploma, I worked for a leading auditing company in the field of industrial auditing, where I first obtained my federal certificate as a trustee and then my diploma as certified public accountant in Zurich. I reached the rank of senior manager. During my career, I have been involved in the auditing of annual and group financial statements prepared in accordance with IFRS, Swiss GAAP Fer and the Swiss Code of Obligations of small/medium-sized companies, as well as large corporations. Today, I mainly audit the annual accounts of small/medium-sized companies, pension funds, and municipalities, putting my more than 20 years of experience at the disposal of my clients. I advise on the closing of accounts and the preparation of consolidated annual accounts in accordance with the aforementioned accounting standards.
